1. WHAT IS THE JUNIORS WEBSITE?

The Juniors Website is a new CFA website for Junior Members, Parents, and Junior Leaders.

It has resources about CFA, links to modules and learning, and a homepage for your Brigade's Junior Program. Over time, it will also act as a space to house new programs and resources for the Juniors program.

We suggest that Juniors and Parents check in to the site at least every month to see news and updates, and become familiar with the content and resources that are available to Members. Parents are encouraged to access the site through their Junior's login (detailed below).

Why was the website created?

The Juniors site was created to solve several different problems:

- To provide Juniors with information about CFA that is targeted and relevant to their program
- To provide direct access to Child Safety Resources and reporting channels, as is legally required of CFA.
- To provide Junior Brigades with a personal space to post communications about Brigade programs and activities, separate to social media channels.
- To provide CFA HQ a better way to promote CFA activities, opportunities, resources, and news to Juniors.

We hope that you use and enjoy the new website to make your Junior experience the best it can be. We also hope that with your help, we can continue to grow and develop the website so that it serves your needs as best it can. Whenever you can, please suggest features, ideas, feedback, and report bugs.

2. USING THIS GUIDE

This guide will be updated as the site changes over time. The aim is to cover most of your questions, but we will update it based on your feedback. We ask that you keep in mind the following:

1. The site will change based on reports of issues and feedback, and as a result, images and content in this guide may be slightly different to the current site's operation.
2. When using the site, please use the feedback button in the top right to report issues and suggestions.
3. If you encounter an issue, first try a different device or browser. This can solve a lot of issues!
4. Thank you for using the site, we appreciate your help in improving it.

3. SIGNING IN

3.1 How can I access the Junior Website?

The Junior Website online, and can be found by typing the following address into your address bar:

<https://juniors.cfa.vic.gov.au>

You can also find links on the [Juniors page](#) of Members Online and the [Junior Volunteer page](#) of the public CFA website. Add it to your homescreen for easy access!

3.2. Who can access the Junior Website?

The Junior Website checks your CFA role when you access it. The site only allows current Junior Members and Junior Leaders to access all pages. If somebody else requires access, they can email juniors@cfa.vic.gov.au with a request. Parents are encouraged to access the site, and can sign in using their Junior Member's login details.

3.3. Junior Member Access

Junior members can access the site through the same pages mentioned in 3.1, but they may not have activated their CFA account.

On the main sign in screen for the Junior Website, (shown on the right), users can select the "Start Activation" link and follow the steps. Juniors will require access to the email address they registered with, which is likely their parent's / guardian's email address.

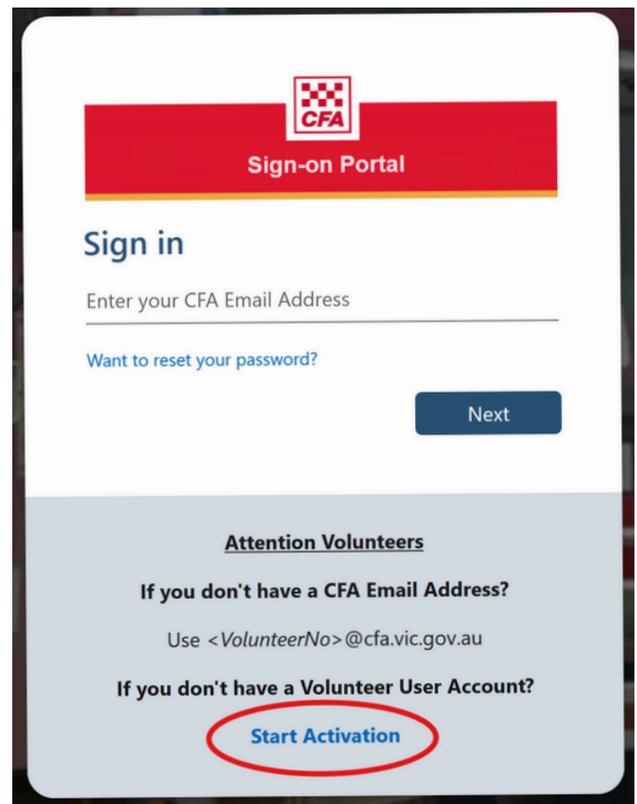

Once the activation steps are completed, return to <https://juniors.cfa.vic.gov.au>, and try signing in.

They will need to sign in using their member number as follows:

Username / email field:

<VolunteerNo>@cfa.vic.gov.au (example: 123456@cfa.vic.gov.au)

You will then be asked to type the password you set up during the activation step. After that - you should be in!
